*The fish "they are a jumpin'!"
They're slippery and tough to catch*

Instructions

Randomly place all 8 fish on a flat surface. Turn over the 60-second timer, then grab a fish and link as many together as you can (tail-hook to mouth-hole) before the timer runs out. Earn one point for every fish you link and a bonus point if you link all fish species of the same type back-to-back (for example, all bass one behind the other.) The player with the most points wins the round.
