

My First Brain Quest™ Preschool

Fruit Dominoes

Instructions

Object

To play all picture cards in your hand.

Contents

- 28 Picture Cards
- Instructions

Set Up

Mix the picture cards and place them face down on the table. Hand out the picture cards.

- If there are two players, each player gets 7 cards.
- If there are three players, each player gets 6 cards.
- If there are four players, each player gets 5 cards.

Spread the remaining picture cards face down on the table.

Playing the Game

1. The youngest player goes first by placing one of his/her picture cards face up in the center of the table. Play passes to the left.
2. If the next player has a picture card with a matching picture, he/she places that card so that it touches that matching picture. Players may place the matching picture card in one of three positions; on either the picture card just played or at an open end of another card. This player's turn is over.
3. If the player does not have a picture card that matches, he/she takes one card that is face down.
 - a. If a matching card is picked up, the player must play this card on one of the matching sides.
 - b. If a non-matching card is picked up, the player must keep the card and his/her turn ends.
4. Play continues until a player places all his/her cards on the table, or until no more matches can be made.

Winning the Game

The first player to place all his/her picture cards, or the player who has the fewest picture cards in his/her hand, wins the game.
