

Tug of War

Instructions

Objective

- Be the player who captures all of the cards.

Contents

- 40 cards

Setup

- One player shuffles the cards deals all of the cards to each player one at a time, facedown.
- Players should leave their decks face down in front of them and not look at the cards.

Playing the Game

- At the same time, each player takes the top card from his/her deck and places it face up in the center of the table.
- The player with the highest numbered card wins all of the cards from the round and places them face down at the bottom of his/her deck.

- Each player then selects the next card from the top of his/her deck and places it face up on the table and repeats.
- If any players turn cards with the same number, it's a tug of war! If play is with more than two players, only those players with matching cards can play in the tug of war.
- Each player in the tug of war places one card face down and another card face up. The player with the highest face-up card wins the tug of war, collects all of the cards in play, and places them face down at the bottom of his/her deck.
- If the face-up cards happen to match again, repeat until there is a winner.

Winning

- The player to collect all of the cards from all of the other players wins the Tug of War!
