

HOW TO PLAY:

Are you ready to play? Anyone can start! Player 1 spins the wheel. The spinner will land on one of the following: Waldo, Wizard, Woof, Wenda or Oldlaw.

IF YOU LAND ON...

Waldo:

Draw 2 or 3 Waldo Cards, depending on what you spin, and place them face up for all players to see.

Waldo Cards show you hidden objects to search for on the game boards. They can be hidden in any of the 8 game boards.

Everyone searches at the same time, trying to find the objects on all cards. The first player to find a hidden object and mark it with their chip wins the matching card. The round continues until all hidden objects are found and the cards are collected.

More than one person can win a card in a round. At the end of the round, players collect their game chips and the next player spins.

In this example, the player with the red chips wins the Waldo card with the "Ferocious Fish"

Wizard:

Draw 1 Wizard Card and place it face up for all players to see.

Wizard Cards are also search cards, but give descriptions of hidden items, rather than images. The descriptions are broad and can refer to multiple objects on multiple boards. The card indicates how many objects must be found and if they must be found on 1 or more boards.

Everyone searches at the same time, racing to find the objects and mark them with their game chips. The first player to find and mark all items wins the card. This concludes the round. Players collect their game chips and the next player spins.

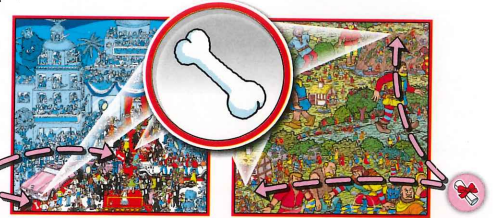

In this example, the first player who finds something striped in 2 game boards wins the round and the card.

2

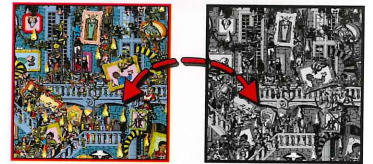

Woof:

Search for bones! There are bones hidden on every board. If a player spins and lands on Woof, all players race to find 4 hidden bones and mark them with the game chips. The first player to find and mark 4 bones wins a Bone card from the Woof Card pile. This concludes the round. Players collect their game chips and the next player spins.

Wenda:

Flip over the boards! If a player spins and lands on Wenda, they must flip all the game boards over to the black and white side, then spin again.

On the next spin, if the player lands on:

- Waldo, Wizard or Woof - players search for hidden items in the black and white boards. If a player draws a Wizard Card that asks players to search for a "color", place it at the bottom of the card pile and draw again.
- Odlaw - follow the Odlaw directions in the next section.
- Wenda - spin again.

Flip the game boards back over to the color side when it is the next player's turn.

Odlaw:

Shuffle the Boards! If a player spins and lands on Odlaw, they can shuffle and rearrange the boards any way they want and spin again.

MIX 'EM UP!

3

WINNING:

The first player to collect 8 game cards wins the game! Play shorter or longer games by changing the number of cards needed to win the game. In the event of a tie, the game continues until one player wins by a card.

GAME CONTENTS:

- 8 Double-Sided Game Boards
- 106 Action Cards
- 2 Postcards
- 1 Spinner
- 24 Game Chips

OBJECT:

Race to find hidden objects in the 8 game boards and collect cards. The first player to collect 8 cards wins!

GETTING STARTED:

Arrange the game boards in a 3 X 3 grid, with the spinner in the center of the grid. The boards should be color side up. The game boards are rearrangeable, so organize them however you like, always keeping the spinner in the center.

Set up 3 piles of cards - Waldo Cards, Wizard Cards, and Woof Cards - all face down. These can be placed anywhere around the game board.

Players choose their game chips, taking all chips of the same color. There are 6 styles to choose from. Game chips will be used to mark objects you find on the game boards. Decide who will go first.
