

Impossibles® Solutions

Lost in the Woods

You are actually looking for the "dimpled" texture of a golf ball. This texture can be found somewhere on the club itself – on the colored head, the white shaft, or the black grip. The balls are not necessarily "white" or "round," but they take the shape and color of whatever they are on.

Additional tips: three are on the left side, and two are on the right side of the puzzle.
