

What to do on your turn

When starting the game the youngest player goes first.

- 1 Always start your turn by rolling the jumbo die.
- 2 Going clockwise, move your character pawn to the first matching colored space rolled.
- 3 If you land on a backpack space then you get to reach into the backpack for items! The backpack spaces have numbers on them. Reach into the backpack the number of times shown on the space. For instance, if you land on a backpack space with a "2" then reach into the backpack by lifting the flap and, **WITHOUT looking**, remove two items, one at a time. If you need the items, place them on the matching space on either of your animal cards. If you don't need the items, ask the next player going clockwise if they need them. If they do, they can take one or more of the items and place them on their animal card/s. If they don't, then ask the next player going clockwise if they need them. Continue this way until all players have been asked. If no one needs the pieces then place them back into the backpack through the slot on the top.
- 4 If you land on a special space, see opposite page.
- 5 Your turn is now over and it is the next player's turn going clockwise.

Winning the game

The first player to get all three items on each of their animal cards wins the game!

Short Game?

Want to play a short game? Play with one animal card each!

The spaces!

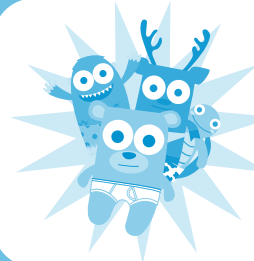

Backpack space

See "What to do on your turn" #3 for what to do when you land on this space.

Roll again

If you land on this space then roll the jumbo die again and take another turn.

Animal time!

If you land on this space, get up and act like your favorite animal! Have fun!

Food time!

If you land on this space, get up and act like you're eating your favorite food. Don't be shy!

How to play Bear in Underwear

BACKPACK ADVENTURE BOARD GAME!

Contents

Game Board Extender Piece, Backpack, 10 Jumbo Cards (Animal Cards), Jumbo Die, 10 Underwear Pieces, 10 Forest Items, 10 Food Pieces, 10 Character Pawns, and 4 Stands

Object of the game

Travel around the game board collecting your animal's underwear, favorite food, and forest item from the backpack. Place the collected items on your card. First player to complete two animal cards wins the game!

Setting up the game

This game uses the bottom of the box as a 3D game board! How cool is that?

- 1 Remove all components from the bottom of the game board box.
- 2 Attach the game board extender piece to the opening on the game board box.
- 3 Place all of the underwear pieces, forest items, and food pieces (remove them from their cards the first time you are playing) inside the backpack. Place the backpack near the playing area.
- 4 Each player chooses two animal cards and places them face-up in front of them.
- 5 Each player chooses one character pawn (remove them from the card the first time you are playing) and places it in a stand. Place the unused character pawns to the side.
- 6 Each player places their character pawn and stand on the start space on the game board box.
