

CATEGORIES GAME

RULES

Ages: 10+
Players: 2+

Contents:

160 Categories on 80 Category Cards

Object:

Be the first player to win three Category Cards.

Set-up:

Place the pack in the middle of the table.

How To Play:

- The first player takes the top card from the pack, turns it over and reads the category aloud.
- The first player is allowed a few seconds to think, then must name an item in the category. For example, if the category is 'body parts,' he/she could say 'mouth.'
- Play then proceeds in a clockwise direction, with the player to the first player's left naming a different item in the same category.
- Play continues in this manner until someone cannot name an item in the category or until someone repeats an item already named.
- The game is paused each time a player fails to correctly name an item. That person is then eliminated from the round, and play continues until only one player remains. That player wins the card.

- The next player then picks up a card, turns it over and reads the category aloud. Play continues as before.

Notes for Fair Play:

- Each player is allowed about three seconds of thinking time. To keep this fair, the players can clap, click their fingers or tap out three beats between the answers, as in: 1-2-3-ITEM, with the item being named on every fourth beat.
- Disagreements about the validity of a named item must be resolved by good-natured discussion among the group. The majority of opinions confirms whether an item is valid.

WINNING THE GAME:

The first player to win three Category Cards wins the game.
